

DVR1A and DVR1C

Meet the new generation digital recorders

The ideal replacement for traditional Time Lapse recorders. The DVR1A and DVR1C Digital Video Recorders are the ideal and logical replacement for traditional video recorders in CCTV systems. These new generation digital recorders bring the recording, storage, retrieval and viewing of images into the 21st century – while saving you time and money. Digital means much more capacity, greater convenience and an end to costly and frequent maintenance. You won't need any videotapes anymore either.
